Md. Shorif Hossan is an Assistant Professor in the Department of Applied Mathematics at the University of Dhaka, Bangladesh. He completed both his Bachelor's and Master's degrees in Mathematics and Applied Mathematics, respectively, at the same institution. Currently, he is on study leave to pursue a Ph.D. in Data Science at Southern Methodist University, USA. His research is centered on numerical analysis, differential equations, and mathematical modeling, with a particular focus on developing computational methods to solve complex problems in finance and engineering.
