BRAC UNIVERSITY

A JOINT INITIATIVE OF
THE LEARNING & TEACHING INNOVATION CENTER (LTIC)
AND BRAC BUSINESS SCHOOL (BBS), BRAC UNIVERSITY

TURN REAL-WORLD EXPERIENCE INTO POWERFUL LEARNING

CaseCraft helps educators transform authentic professional dilemmas into teachable cases — and use them to create richer, more analytical and practice-connected learning experiences.

WHY CASES MATTER IN ACADEMIA?

Cases bring real-world complexity into the classroom, enabling students to analyse evidence, navigate ambiguity, and make informed decisions.

They move learning beyond concepts to critical thinking, professional judgment, ethical reasoning, and authentic practice.

Used systematically, cases can become a powerful Signature Pedagogy that helps students learn how professionals think, decide, and act.

WHY CASECRAFT?

- Turn lived and professional experiences into classroom-ready cases
- Build stronger skills in case writing, facilitation, questioning, and assessment
- Connect disciplinary knowledge with authentic decision-making practice
- Move from a single case to a sustainable, discipline-specific Signature Pedagogy
